

35 U.S.C. 121:

The inventions stated are:

I - Claims 1-13, 28-40, drawn to a redundancy structure, classified in class 257, subclass 758, and

II - Claims 14-27, drawn to a method of making a redundancy structure, classified in class 438, subclass +1.

Applicant believes this Restriction Requirement was sent in error, as Claims 2-40 were cancelled upon filing of this Divisional patent application, as shown in the attached letter sent upon filing of the application.

Furthermore, Claims 41-48 were added in a Preliminary Amendment filed simultaneously with the Divisional application filing on June 24, 2003.

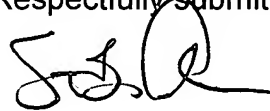

Claim 1 will be cancelled, and was only retained for purposes of the Divisional filing.

The Examiner is therefore respectfully requested to withdraw the Requirement for Restriction in the Office Action, and to proceed with examining Claims 41-48.

Withdrawal of the Restriction Requirement, and allowance of the present Patent Application, is respectfully requested.

It is requested that should there be any problems with this response, please call the undersigned Attorney at (845) 452-5863.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'S.B. Ackerman', written over the text 'Respectfully submitted,'.
